BRITISH DEBATE TO OPEN SEASON ON NOVEMBER 29

Gymnasium to be Scene of International Contest on That Evening

TWO TRIPS TO BE TAKEN

Randolph-Macon, North Carolina, Ohio Wesleyan, and Other Institutions To Be Met

The 1926-27 season of the Men's debate team will begin with the annual international debate to be held this year with Cambridge on November 29. The debate will take place in the Gymnasium, and it is promised that a considerable number of seats will be available to students upon presentation of their Student Activity cards.

The Cambridge-G. W. debate will be the last for the English orators before their return home. Trials for places on the G. W. team to meet Cambridge will be open to both men and women, but only to those who debated last year, and will be held October 1, the time and place to be announced.

John Trimble, Manager of the G. W. team, has arranged a busy schedule for the men during the 1926-27 season, which will start with the trials about December 1, the actual debates beginning about December 10. This schedule includes two long trips, one in December, when the G. W. debaters will meet the teams of a number of southern universities, and another in February through the Middle West.

The southern trip will include debates with Roanoke, at Salem, Emory and Henry College, Duke University, Davidson College, University of North Carolina, Hampton, Randolph-Macon, Richmond, and William and Mary; while in February the G. W. team will journey to Detroit for two debates there, one with the University of Detroit and the other with the City College of Law. On their return trip by way of Chicago they will meet Butler, University of Cincinnati, Ohio Wesleyan, University of Indiana, at Bloomington, and the University of West Virginia, eight debates in all for the western trip.

In addition to this heavy out-of-town schedule, debating teams from a number of universities and colleges will come to Washington to meet the G. W. men on their own ground, among them the University of North Carolina, Roanoke, Randolph-Macon, University of Indiana, University of West Virginia, and the University of Maryland.

THE GHOST TO STALK UPON CAMPUS NOV. 20

Famous Comic Magazine, Published By the Press Club, Will Make Its Appearance Soon

The Ghost, long dead student humorous publication of George Washington University, will be revived this year by the G. W. Press Club, an organization of men students organized on the basis of a local professional fraternity. The first issue is expected to appear on the campus November 20.

The Press Club was granted permission to publish the Ghost by the Faculty Committee on Student Publications at a meeting held at the end of the past school year. The club is to have full charge of the magazine for one year, under faculty supervision, at the expiration of which time the faculty has reserved the right to take the publication over under Student Activities if it sees fit.

The comic will be issued bi-monthly at first, and if the circulation and advertising warrants, the issue will be increased to a monthly one. The staff is at work on the publication, but it will not go to press until November 10. Students interested in doing work on the staff are asked to leave their names on a slip of paper addressed to the Ghost in the letter slot of the Hatchet Office in the rear of Building 3.

Cartoonists are especially wanted, and if possible they are requested to leave a sample of their work with their name, address and phone number. Copy and other matter for the publication may also be left in the Hatchet Office.

SUMMER ADDRESSES MADE BY PRESIDENT

President William Mather Lewis spent the summer months at his home in Colebrook, Connecticut.

During June he addressed the convention of the National Education Association at Philadelphia, and the American Bar Association at Bedford Springs, Pennsylvania.

He also attended the sessions of the Institute of Politics at Williamstown, Massachusetts.

DEAN ROSE'S TEA

All girls of the University are invited to attend the first tea of the year to be given by Dean Rose in the Women's Building today from 4.30 to 6.00.

PRES. LEWIS SPOKESMAN AT SESQUICENTENNIAL

President William Mather Lewis has been chosen as the spokesman for the District of Columbia at the Sesquicentennial on District of Columbia Day, October 6th. His subject will be "The Future of Washington."

It is expected that a large delegation of residents of the National Capital will attend the exposition on that day. The program will consist of addresses by one or two prominent citizens of Washington, with selections by the Army Band, which has been detailed to Philadelphia for this event by the Secretary of War.

WOMEN'S SPORT PLANS OUTLINED

Sports for the Majority the Plan of Physical Education Department

HOCKEY TAKES LEAD OFF

Tennis, Basketball, Rifle, Fencing and Swimming Have Part in Program

Elaborate plans for a bigger and better women's sport year have been formulated by the department of Physical Education under the direction of Miss Virginia Hopkins, who starts her second year as head of this branch of the University, after having completed a most successful year during the term of 1925-26. With an increased budget for women's athletics, passed at the close of last semester by the Athletic Council, an extremely brilliant season starts during the first week of school.

Sports for the majority and Varsity contests between schools of first-rate collegiate standing has become the definite policy of the physical education department, according to Miss Hopkins. Required gymnasium work for two hours weekly for all freshmen women has again been adopted with the change of one hour a week being given to a study of Hygiene. Advanced dancing classes as well as evening classes in gym work have been started by the school. Aesthetic dancing will be given at the hour most suitable to the majority, according to Miss Hopkins.

Student Instruction
The system of student instruction in sports is to be used in all branches of sports and this will insure a larger field of athletics for a greater majority, which according to the reports of the National Athletic Association, is the trend of all the leading colleges at the present time. This system leads to inter-class contests which will be carried out in all branches of sport.

With the opening of the school calendar, hockey under the management of Margaret Schwartz, takes the lead-off. This is the main early fall sport and much is expected from it. Varsity games will be staged with Sweetbriar College in Virginia, and William and (Continued on page 4.)

Hatchet Staff Meets In C. H. Friday Night

All Students Interested in Trying Out for Staff Requested Be Present

A meeting of the staff of the University Hatchet will be held in room 17 of Corcoran Hall at 8 o'clock Friday evening. All persons interested in trying out for positions on either the editorial or business staffs should be present. All persons who have worked on the Hatchet staff in the past and who wish to come out for the masthead again this year are also requested to be present.

Appointments to staff positions will be made by the Board of Editors after the reporters have been given several weeks of tryout. For the information of new students the Hatchet Office is in the rear of Building 3, and may only be entered through the rear door. The Managing Editor will have office hours from 12.30 to 1.00, and the Business Manager from 4.45 to 5.10.

Renovation work will start in the Hatchet Office in the near future. The walls will be repainted and the windows cleaned of their coating of white wash. Two new typewriters have been installed for the use of the staff.

HANDBOOKS ARE OUT; ONE FOR EACH STUDENT

Honor Societies Unite in Publishing Directory and Guide

The George Washington University handbooks are out and may be obtained at the Registrar's Office of Columbian College, at the Office of the Law School, and at the Office of the Medical School. A supply is also on hand in the University Hatchet Office, in the rear of Building No. 3.

A handbook will be mailed to any student who will send six cents to cover postage to Irvin McGrew, business manager, care of the University Hatchet. The handbook has been published by the honor societies of the University. Marguerite Daly, representative of the Hour Glass honor society, edited the publication, and Irvin McGrew, representative of Gate and Key honorary interfraternity, was its business manager.

OPEN SEASON SATURDAY WITH NEW YORK CITY COLLEGE

Back row, left to right: Assistant Coach Davis, Hottel, Lopeman, Coleman, Harris, Evans, White, Porter, Haun, Malley, G. Viethmeyer, H. Viethmeyer, Wisener, Coach Crum. Second row: R. Clark, Stehman, Perry, Benedict, Lyman, Burns, Toler, Drew, Floyd, Carey, H. Clark, Ross. Front row: Manager Tennyson, Williams, Carpenter, Allhouse, Simons, Breslow, Capt. Sapp, Clements, Kegel, Bontempo, Bauserman, Assistant Manager Alewine.

FROSH REQUIRED TO DO GYM WORK

All Full Time Students Not Out For a Team Must Report

FIRST CLASS OCTOBER 2

Freshman Teams in Football, Basketball and Baseball are to be Organized

All full-time freshmen are required to take physical training, according to a new rule which has just gone into effect. Each man will be required to attend three classes each week, one of which will be a Hygiene lecture by Dr. Frank A. Hornaday, of the Medical School.

Dr. Hornaday will meet his class on Saturday morning at 11.05. Time for the other classes is being arranged. The first meeting of the class will be held Saturday, October 2, in the Corcoran Hall assembly room at 11.05.

Any freshman who is a candidate for a freshman or a Varsity team will usually be excused from gymnasium during the season the team for which he is a candidate is active.

Arrange Grid Schedule

Freshmen teams are to be organized in football, basketball and baseball, and a schedule is being arranged with frosh teams of neighboring universities and with local high school eleven. Any freshman is eligible for the Varsity squad this year, and if capable men are uncovered on the freshmen teams they will be transferred to the Varsity squad.

Athletic Director Crum and a corps of assistants will have charge of the gymnasium work. It will consist of gym classes, tennis, outdoor and indoor basketball in season, track work, and similar sports.

A tennis court has been placed on the campus, and a basketball court is being constructed near the Architecture building.

All freshmen will be required to take a physical examination, the time and place of which will be announced later.

ARGENTINE GOVERNMENT PRESENTS RARE BOOKS

More than 160 volumes, forming a representative collection of Argentine literature, has been presented George Washington University by the Government of the Argentine Republic.

The books cover the fields of poetry, drama, natural history, biography, philosophy, psychology and other scientific fields. They are in the Spanish language and will be added to the Hispanic collection in the University Library. George Washington University was one of four institutions in this country to receive this gift from the Argentine Government.

BRUNETTES PREFERRED BY COLLEGE JOURNALISTS OF PI DELTA EPSILON

Student Newspapermen's Vote Shows the Day of the Innocent Blond Has Passed; Delegate From the George Washington University Chapter Attends Convention Held at Berkeley, California

"Brunettes—tall, slim girls who are worldly wise. The day of the innocent blond has passed." This was the consensus of opinion among the delegates to the national convention of Pi Delta Epsilon, national collegiate honorary journalistic fraternity, held at the University of California this summer. Delegates from the forty-three chapters of the fraternity spread throughout the country attended the convention.

Questionnaires were issued to the delegates to determine their preference for dance partners at the various receptions planned for the week of the convention, and the committee was

FRESHMEN BEWARE THE BLUE KEY

NEW BUILDINGS ARE ADDED TO UNIVERSITY

Women's and Engineering Building, Also New Laboratory Facilities Among the Additions

With the opening of the University this year, several new buildings will begin service, and many improvements on the old ones will facilitate the work of the Arts and Sciences Department. An Engineering Building, Women's Building, enlarged and improved botany and zoology laboratories, and finer gymnasium facilities than the University has ever had before, are the most prominent of the changes since last June.

Dean Rose has moved her office to the old three story Kern Annex, now a University Building, where the affairs of women now have their headquarters. In another part of the same building, Professor Doyle, now official advisor to Men's Organizations, has established the men's headquarters.

In the building where Dean Rose formerly occupied the first floor and the women's club rooms the second, there are now fine extensions to the botany and zoology laboratories; also in the Women's Building are the rooms of three sororities, Zeta Tau Alpha, Alpha Delta Theta, and Alpha Sigma Theta. The latter sorority is a new local recently organized here. Conditions have been bad for the past few years in these departments because of serious overcrowding, and the new facilities are a welcome relief.

PROF. DOYLE ELECTED P. D. E. VICE PRESIDENT

Professor Henry Gratian Doyle, Professor of Romance Language and Advisor to Men's Organizations, was elected national vice president of Pi Delta Epsilon, national collegiate honorary journalistic fraternity, at the convention of the fraternity held at the University of California at Berkeley, California, September 8, 9, and 10.

Prof. Doyle is a member of the George Washington University chapter of the fraternity and is their chapter advisor. The election of Professor Doyle to a national office marks the second of the national officers to come from George Washington University in the past two years. Last year Robert H. McNeil, a former editor of the local chapter and a G. W. U. graduate, was elected national grand editor and served as editor of the Epsilon, the national publication.

INCREASE NOTED IN REGISTRATION

Number of Entrants is Relatively Greater Than Last Year

WORLD IS REPRESENTED

Registrants Come From All But Two States and Many Foreign Nations

With approximately 2,500 registrations already filed for the Department of Arts and Sciences, 300 for Medical School and 200 for Law School, making the total near 3,000, according to the last authoritative count as taken after the closing of the various offices on Saturday night, the number of students is rapidly swelling.

Miss Linda J. Kincannon, Registrar Department of Arts and Sciences, reports that registration shows a marked increase over the number recorded for the same date last year. Only 1893 students had filed blanks on the corresponding day in 1925, making this year's increase slightly above 600. This is accounted for by the fact that a fine of \$5.00 is levied for all registrations dating after the opening of school on September 27.

New System

A new system of registration has been instituted this year by Miss Kincannon and is looked to as being one of the most successful methods yet used in the handling of the vast number of records that must be kept by the University. According to the new forms students fill in their own class cards and record cards. This speeds up the work in the Registrar's Office and is thought to aid materially in making timely class checks. The system has been used effectively by Cornell University, and a number of the larger colleges are adopting the method this fall.

The registration count, according to Miss Kincannon, shows representatives from every State in the Union except Oregon and Arizona, as well as seven students from Alaska and the Philippines. England, France, Germany, Porto Rico, Sweden, Russia, Switzerland, Brazil, China, Poland, Nova Scotia, and Panama are numbered among the foreign countries sending students to the University.

Many New Students

Statistics compiled at the last count on Saturday night show, approximately twice as many old students and Freshmen and those entering from other schools. The proportion of new students is large, shown by the fact that in Columbian College there are 568 new entrants and 1037 who have attended the University previously.

The records for the Department of Arts and Sciences show the following totals:

Columbian College, 1605, with about 250 unapproved registrations. New students, 568; old students, 1037. College of Engineering, 348; new students, 88; old students, 260. Teachers College, 310; new students, 77; old students, 233. Total number of approved registrations, 2263; total number of new students, 733; total number of old students, 1530.

HATCHET TO BE MAILED

Copies of the Hatchet will be mailed to the students next week, if the present plans of the business department go through. The business staff is working on the stencils for the mailing of the issue, and each student who registered on time and filled out the Hatchet mailing card in the proper manner should get a copy of the next issue at his home. If the Hatchet is not received, or if any change of address occurs, notice of the same should be written out and left in the mail slot in the door of the Hatchet Office in the rear of Building 3, addressed to the Circulation Manager.

HATCHETMEN TO MEET C. C. N. Y. IN OPENING TILT

Football Season Opens Saturday With Game Against New York Eleven

INVADERS ARE POWERFUL

Buff and Blue Mentors Perfecting Plays; Lineup Not Yet Announced by Coach Crum

Thrills aplenty are forecast for Saturday afternoon when the George Washington football team goes into action against the black-jerseyed eleven from the College of the City of New York at the Central Stadium at 2.30 p. m.

Coaches Crum and Davis are drilling the Hatchetmen daily on the Potomac Park field, and are polishing up the rough spots which have appeared in their machine. The squad, numbering about 40 men, has been quartered at College Park for the past two weeks, where the coaches have been conditioning the men in preparation for the opening game of the season.

While he no doubt has a good idea of who will start against the Lavender outfit, Coach Crum will not announce his lineup until just before the game Saturday.

Visitors Loom Strong

Coach Parker, of the New York institution, has been working his squad, which numbers over 35 men, since September 7. Numerous scrimmages have been held, and the invaders will bring a powerful aggregation to Washington. According to reports, Coach Parker will again use the "huddle system." This method calls for a "conference" of the team before each play is called, and is employed by some of the outstanding eleven in the country.

The Lavender coach is experimenting with various combinations, but is not expected to select his lineup until the eve of the contest. Saturday's fray will usher in the season for the New Yorkers.

Has Wealth of Material

With an abundance of line material to choose from, Parker has four positions in the line to fill. Al Dreilband will doubtless hold forth at center. With Johnny Elterich at right guard, only left guard is now in doubt. Clark, a 210 pounder, is a leading contender for the other berth.

Rosenbluth, playing his fourth year under Parker, is almost certain to get a tackle assignment, while Capt. "Tige" Seidler is expected to hold down the other tackle post. Five good wingmen are battling for the end positions.

In the backfield, Coach Parker will have either Raskin or Rosenberg calling signals, and Barekman and Cohen at half. Bill Josephberg will probably play fullback, although Art Moder, last year's quarterback, is pushing him hard for the berth.

University Student Is Drowned In River

Police Recover Body of Walter Myers, Who Sinks Before Assistance Comes

While several onlookers stood watching him, Walter C. Myers, George Washington graduate student, was drowned while swimming in the Potomac River about 3 o'clock last Friday afternoon.

Myers, a member of the Washington Canoe Club, dove off the club float shortly after 3 o'clock. A few minutes later the proprietor of a nearby boat-house saw him struggling in the water and rushed to his assistance in a row-boat. Myers sank before aid could reach him. Officers of the Harbor precinct found the body.

Myers was employed at the Naval Observatory as an instrument maker. He also had charge of transmitting the standard time signals over the radio.

Graduated Last February

He received his A. B. in February, 1926, and was enrolled in the Graduate School as a candidate for the degree of A. M. Myers was majoring in mathematics.

Myers was a half-mile on the track squad for three years, and was expected to be out for the team this year. He was a graduate of Central High School of this city, receiving his diploma from that institution in 1921.

G. W. U. STUDENT WINS IN PALM BEACH CONTEST

Elbert Huber, a student at George Washington University and a member of the Hatchet staff for the past two years, was one of the winners in the Palm Beach advertisement contest and has received five dollars for his original ad concerning the merits of Palm Beach clothes.

The Palm Beach contest was held in conjunction with an advertising campaign held last spring in which the University Hatchet participated. Three hundred dollars was distributed in prizes to University students. A number of students of the University are reported as having submitted their ideas, but Huber was the only lucky one.

WASHINGTON, D. C., WEDNESDAY, SEPTEMBER 29, 1926

"FOR THE GLORY OF THE SCHOOL"

When the shrill whistle of the referee sounds across the gridiron Saturday afternoon and eleven players sweep down the field behind the flying oval, the Coach is bound to have the complete, whole-hearted support of the entire squad. But will the squad, in its turn, have that deep sense of confidence which is inspired only by the fullest measure of support from the student body? When a football team loses a game, it is almost always a case of "who struck John?" or "who killed Cock Robin?" The coach often blames the team. The team places the responsibility for its defeat upon the student body, and the rank and file of the institution, not to be outdone, censures the coach. And so, we find that it is an endless chain.

Regardless of WHO gets the blame, be it either for a lost game, or an entire season of defeats, it is folly to think for an instant that the football team, or any other team, for that matter, will give its full quota for the "glory of the school" when it is plainly and painfully visible that a greater part of the students are not doing their share, their comparatively "soft" job of cheering. This year's football schedule is all that could be desired. The coaches and the squad will fulfill their part of the bargain. The success of the season is now up to the student body. You have first-class coaches, a first-class squad, and a first-class schedule—what are YOU going to do about it?

G. W. U. PROGRESSES

George Washington University has just opened its 105th academic year. Backed by more than a century's existence and a wealth of achievement in which it takes justifiable pride, the University looks forward to the greatest year in its colorful history. The enrollment in all departments of the University is expected to reach the six thousand mark, while increased facilities in the way of new buildings, an ever increasing faculty, and better equipment will take care of both the scholastic and extra curricular activities of the student body.

In the field of professional education George Washington University maintains three class "A" schools. The Medical School is the oldest of the three, being the eleventh medical school to be established in the United States. Each year the number of applicants for admission is many times greater than the number that can possibly be admitted. The Pharmacy School ranks among the leading in pharmaceutical education, offering a four year course leading to the degree of bachelor of science in pharmacy. The Law School is a member of the Association of American Law Schools, and ranks with the country's best.

The Arts and Sciences Department of the University has progressed steadily since the days of old Columbian College. Today this school, still known as Columbian College, but now a school of George Washington University, helps that University stand among the foremost urban universities of the world. The College of Engineering, the School of Graduate Studies, Teachers' College, the Nurses' School—all go to make up a University 105 years old in experience and among the nation's foremost in standing.

OUR LITERARY SUPPLEMENT

As announced in the last issue of the Hatchet last Spring, it is the plan of the present Board of Editors to issue a literary supplement along with the regular edition once in every month or six weeks, that supplement to contain the cream of student-written short stories, poems, criticisms, book reviews, feature stories, and other matter of a literary nature. Students are asked to submit work of all kinds to the literary editor in care of the Hatchet.

A number of attempts have been made to issue a literary magazine at George Washington University, but they have not been successful. This field of effort has long been neglected and it is felt that the Hatchet may serve as an incentive and stimulus to student effort along literary lines by issuing this insert.

THE NEW RUSHING RULES

As the starting point for sorority rushing this Fall, the local Pan-Hellenic Association has laid down some closely binding, but necessary and advantageous rules. The newest and probably the most needed phase of the Greeks' "Book of Laws" is the financial limitation of \$265, all donations, including alumnae parties, to be taken from the fund. From the standpoint of the sororities, this eliminates the heavy expenses of the rushing season, which had become one elaborate social occasion after another, thus breaking down the uneven wall of competition that is bound to exist between those groups that could, and those that could not afford brilliant and costly affairs. This regulation gives the rushees a chance to regard the Greek groups from a viewpoint not obstructed by a curtain of costly splendor; it also gives them a chance to regard their choice unpredjudiced by a scare of "only for the wealthy."

The non-rushing periods, during the "Little Sister Movement" and from January 1 to February 1, are to be beneficial to both parties in the line of promoting friendships, scholarship and school spirit. The "Dutch Treat" clause allows a little informal but legal rushing on the sidelines which is, of course, an even break for both sides. In the putting down of the penalty for violation of the rules in black and white the sororities have displayed their business-like ability to handle all their affairs.

PROF. DOYLE BUSY

"An edition of the plays of Carlos Arniches," edited by Henry Grattan Doyle, Professor of Romance Languages at George Washington University, will soon go to the publishers. Professor Doyle is the author of several other Spanish works.

In the absence in Europe of Prof. Bert Young of the University of Indiana, editor of the Modern Language Journal, Prof. Doyle has edited the October number of that publication which will soon be off the press.

James E. Stevens, law '24, and Miss Adela Stevens, of Marion, Indiana, were married at the home of the bride, August 5, 1926. Mr. Stevens is the national president of Theta Upsilon Omega fraternity and was one of the founders of the local chapter.

Mr. and Mrs. Earl Brown announce the birth of a baby girl born July 30. Mr. Brown is an A. B. of the class of '24.

The University has learned with regret of the death of Dr. Edward A. Brown, class of 1925, in the Lake Denmark, N. J., explosion during September.

Professor and Mrs. John Donaldson recently returned from Europe, where they spent the summer touring. They crossed from London to Paris by airplane. Dr. Donaldson visited the Royal Exchange at London and the League of Nations at Geneva, and conferred with officials of the International Chamber of Commerce at Paris, and with various American Commercial Attaches and Trade Commissioners and representatives of American Chambers of Commerce at principal European centers.

Professor Donaldson spent last week in Philadelphia as a delegate of George Washington University to the Congress of American Industry. He presented a paper on "Our Changing National Industrial Structure," and offered a resolution for the perpetuation of the Congress. While there he also visited the various domestic and foreign industrial and commercial exhibits at the Sesqui-centennial Exposition.

Lloyd A. Stevens, A. B., of George Washington University, and Eleanor S. Gilbert, daughter of Mrs. Chas. H. Soren, were married in Baltimore, Maryland, August 14, 1926. Mr. Stevens is a member of Theta Upsilon Omega fraternity.

Craig Starbuck Atkins, law '26, and Margaret Elinor Denty, daughter of Mrs. Y. W. Cordell, were married June 13, 1926, at the All Souls Episcopal Church, Chevy Chase. Mr. Atkins is a member of Theta Upsilon Omega fraternity.

Prof. W. L. Cheney spent the summer with the Bell Telephone Laboratories, Inc., New York City. He was engaged in an investigation of cobalt steel magnets.

Mr. and Mrs. H. Watson Crum announce the birth of a son, John (Jack) Thompson Crum, at the George Washington University Hospital on August 31. Young Jack came into the world weighing seven pounds, but his daddy, Coach Crum, is yet unable to determine whether he will be line or back-field material for the 1926 G. W. U. eleven.

Merle I. Protzman, Assistant Professor of Romance Languages of the University, and Miss Jeanne Herbert, a G. W. student, were married August 2nd at Rockville, Maryland.

Ernest Sewall Shepard, G. W. graduate, and Assistant in English of the University, and Miss Louise Strother, a G. W. student, were married during the latter part of the summer.

EPISCOPALIANS WILL DANCE

The Episcopal Club of George Washington University will hold a "Get-together" dance Saturday evening, October 2, at 8.30. Subscription will be 25 cents. The dance will be held in Corcoran Hall, with the Victorians furnishing the syncope.

Fellas!

THE Paving Committee has paved the way to great times—dinner and supper dancing at

THE SPANISH VILLAGE NIGHT CLUB
1304 G Street N. W.

Dinner is a dollar-fifty—no member card needed; dancing 7 to 9.

Madrilion Luncheon 55c & \$1.
Entertainers dinner and supper at the Village.

Chips

THE purpose of this column is to afford a place in the Hatchet for small news items of human or feature interest which would not otherwise be published. Every student of the University is welcome to consider himself as a reporter for it and prizes will be offered for the best items turned in each week. Get in line with Chips.

ALTHOUGH the new Women's building is claimed to be "for women only" Prof. Doyle has something very definite to say on the subject, for he has been installed in a handsome front office with southern exposure and a bay window in that building. He has, however, locked the door between his office and the rest of the building on the inside to "keep the wimmen from bothering him."

SCENES in the gymnasium during the past two days of registration remind one of a cross between the wartime bread line and the G. W. contingent at "What Price Glory" last week. Long lines of last minute registrants kept the staff of the University working at fever heat. The Gymnasium resembled an amateur crazy house with its many rows and its single entrance and exit, and most of the students complained of writer's cramp before getting their long blanks entirely filled out.

ONE girl, noticing the frocks worn by the staff of girls taking the registrations became somewhat

Brooke and Harry, Inc.

WASHINGTON, D. C.

TOBACCO - CANDY

Phones:
Main 6710, 215, 216, 217, 3156.

alarmed until told that every University girl did not have to purchase one.

THE new rule making payment of the first month's tuition in advance a requisite of registration struck some of the students particularly hard and many were forced to return home for more funds before they could register. One youth remarked that he guessed he would have to put a "For Sale" sign on the Lizzie if he was going to register.

THE many students who found the University Hatchet office their rendezvous last year will be sorry to learn that the office will be locked except when some member of the Editorial Board is on duty. The many decorations which the walls have accumulated will be hidden beneath a coat of paint in the near future and the old office may be said to be starting life anew with a clean slate.

THE tennis court in the rear of the Registrar's office has been the scene of many a fierce net battle this summer. It has even done duty on Sundays and a tight match between a

would-be Helen Wills and a has-been Bill Tilden took place last Sunday afternoon.

THE army of G. W. students who earn their way through school grows, with the present trend toward the profession of taxi driver. Possibly this is the reason for the recklessness with which some people tear around the University.

A GREAT quantity of sod has been placed on the bare spots in the back campus and Mr. Schatz, the janitor, has forbidden even the players of Sipa, the game of the Filipinos, from treading on the grass.

ROLL CALL SMOKER

The annual Roll Call Smoker will be held in the basement of the Law School Friday, October 1, at 8.30 p. m. The men of the University are invited.

Four-mile belt conveyor—the longest in the world—installed in a Pennsylvania mine for transporting coal from mines to river barges. Electric motors operate this conveyor.

90,000 Wheelbarrows in one hand

A button is pressed. An electric motor goes to work, followed by another and still others until twenty sections of a belt conveyor four miles long are in operation!

Through an abandoned mine runs this giant wheelbarrow carrying nine thousand tons of coal per day in a steady stream from the miners to the coal barges on the Monongahela River. One man controls it with no more effort or concern than pressing a switch button. Electricity pushes it.

Not only conveyor belts of all sizes, shapes and kinds, but also hoists, tractors, cranes, elevators, stackers, locomotives, and other material-handling equipment have gained flexibility, dependability, and ease of control through electric motorization.

Moving things in one way or another is the educated man's work in life. And electricity, ever at his command, is moving more and still more of the things which move this new world of ours.

The General Electric Company has devoted years of study to material-handling and transportation problems. In its own vast plants the handling and moving of materials and products have been simplified to the highest degree, thus providing a daily demonstration of the value of electricity.

A series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEK-1.

COACH CRUM ENGAGES QUARTERS FOR SQUAD

Candidates for Football Team Return From College Park

Some forty candidates for the football team returned to Washington last Friday, after spending over two weeks at College Park, Md., in rigid training for the coming season. This training camp was made possible through the courtesy of the University of Maryland athletic authorities. Immediately upon their return, the members of the squad moved into the new training quarters which Coach Crum has secured. It is understood that the building is in close proximity to the University.

BLUE KEY SOCIETY MEETS

A meeting of the Blue Key Society, the Sophomore organization which is to control the Freshmen, held a meeting in Corcoran Hall last Thursday night to formulate plans for the year. Just what action the sophomores will take to curb the Frosh have not been divulged, but the members of the Blue Key are firm in their statement that the Freshies will be kept in their place.

Freshman Day Marked By Chapel Exercises

President Lewis Makes Address of Welcome; Law School Holds Opening Exercises

Monday was Freshman Day in the University and no regular classes were scheduled. Full time freshmen met in Corcoran Hall at 11:05 for a chapel period, and part-time freshmen met in the same place at 5:10.

President Lewis made the address of welcome to the freshmen at both exercises. He explained the significance of college life and told the new students what they might make of their life in college if they went about it in the proper way. Copies of the speech delivered to the freshman class last year by the President were distributed.

Dean H. L. Hodgkins explained the academic regulations of the University in his talk. Prof. H. G. Doyle, Advisor to Men's Organizations, spoke on extracurricular, activities and student social relations.

Stockton Hall Memorial Room was the scene of the Law School assembly. The morning classes met at 9:30 and the evening students came together at 5:15. Prizes were awarded, honors announced and several speeches were made. The first class of the day in each instance was omitted, but the regular second period classes were held.

SQUAD PRACTICES AT COLLEGE PARK

Coaches Send Hatchet Gridmen Through Two-Week Training Program

SEVEN VETERANS RETURN

Crum and Davis Gradually Getting Squad Into Shape for Saturday's Fracas

By Campbell Starr

Forty candidates for the football team returned last Friday from College Park, Md., where they have been training for more than two weeks in preparation for the strenuous season which opens Saturday against the College of the City of New York.

Carl Davis

Seven men from last year's eleven reported, as well as a host of new aspirants for berths on the team. Capt. Sapp heads the list of veterans. He worked all summer in a lumber camp, and seems to be in the pink of condition.

Other men who saw service last season, and who have been working out as Coleman, one of the outstanding backs of last year's aggregation; "Red" Allshouse, stellar wingman; Burns, Groton, Athey, and "Bevo" Miller.

Guy Hottel, veteran of two years ago, and who is considered one of the best guards in this section of the country, is out fighting for his old place on the eleven. Porter, a member of last year's squad, is working for a tackle berth.

Scrimmage Against Maryland In addition to several scrimmages against the strong University of Maryland team, the squad has engaged in a thorough program of setting-up exercises, and several long sessions with the "bucking machine."

Coach Crum has been paying especial attention to the backfield candidates. Carl Davis, newly appointed assistant coach and former West Virginia star, has been coaching the forwards in the art of tackling, charging and blocking. The linemen are showing remarkable progress under Davis' eagle eye.

The scrimmages with "Curley" Byrd's Old Liners furnished the Buff and Blue mentors a splendid opportunity to get a line on the new material, and also gave them a fine chance to perfect their tactics, defensively and offensively.

Among the newcomers who showed up to best advantage in the workouts are the two Clark brothers, of Ft. Lauderdale, Fla., both of whom were high school all-state selections at tackle and halfback last year. Stehman, a husky from the hard coal region of Pennsylvania, looks good in the backfield. He is a punter of considerable ability, and is a hard man to stop.

Plenty of New Material Wisener, at center, and Viethmeyer, tackle, also showed up well; as did Floyd and Ross, in the backfield. Perry, at end, is impressive.

Coach Crum is sending the squad through regular practice sessions at Potomac Park all this week, and is gradually ironing out the rough spots which have appeared in the pre-season work of the Hatchettes. Signal drills and blackboard work occupy a good part of the time, and the coaches feel that the squad will be in top-notch shape for the opening game.

A tackling dummy has been rigged up in the lot adjoining the Gym. The coach is planning to give the squad plenty of chance to indulge in the pastime of "hitting the sack."

Crum has not yet picked his eleven, and probably will not announce his lineup until just before the opening whistle blows Saturday afternoon.

Face Stuff Schedule This season's schedule is by far the toughest ever booked by a George Washington team. It is a nine-game card, with the names of four of the leading teams in the East appearing on it. Bucknell, William and Mary, Penn State, and Catholic University will be met. A tentative feature of the schedule is the game with De Paul University, to be played in Chicago, for which Crum is now dicker.

The complete schedule follows: October 2—City College of New York at Washington. October 9—Bucknell at Lewisburg, Pa. October 16—Blue Ridge at Washington. October 23—William and Mary at Williamsburg, Va. October 30—Penn State of State College, Pa. November 6—Ursinus at Washington. November 13—Randolph-Macon at Washington. November 25—Catholic University at Brookland. December 4—De Paul University at Chicago. (Tentative.)

AVUKAH TO MEET

The Avukah, student section of the Zionist Organization of America, will hold an assembly of Jewish students of the University at the Cosmos Club, at 3 o'clock Sunday, October 10. Maurice Samuel, famous writer, will address the assembly. An additional program has been arranged for the afternoon.

MEDICAL FRESHMEN MEET

The entering class of the Medical School met Monday afternoon for their opening assembly exercises. President Lewis and Dean William Cline Borden of the Medical School addressed the assembly.

THE CHERRY TREE

A number of copies of the Cherry Tree, George Washington University Annual, are being held at the Registrar's Office for subscribers who made an initial payment of one dollar last year but who failed to call for their copies when the books were received. These books will be held until October 10, 1926, after which they will be placed on sale at the regular price of four dollars each. There are a few books left for general sale and these also may be obtained at the Registrar's Office.

WOMEN'S FALL TENNIS TOURNAMENT OPENS

Varsity Team to be Selected From Contenders For Cup Held by Phoebe Morehead

Announcement of the fall singles tennis tournament has been made by Virginia Hopkins, director of Physical Education for Women, who states that the slate for the matches will be posted October 2 in Lisner Hall, the Gymnasium and Corcoran Hall. The matches are to be played for the women's G. W. Club cup now held by Phoebe Morehead.

Each round of the tournament will be open four days for play with all matches to be defaulted if they are not run off in that time. The event is open to any student in the University, but the cup may only be held by the winner who is eligible under University regulation to have athletic standing. In this way any contender not carrying nine semester hours of work is ineligible to win the cup.

The Zeta Tau Alpha cup presented for the doubles tournament in the spring was won by Edith Petrie and Elizabeth Chickering, with Elizabeth Garber and Frances Walker as first team contenders as high runners-up. The G. W. Club cup has been held for two successive years by Frances Walker, with Phoebe Morehead taking the third leg in last year's singles combinations.

The tennis team, according to Miss Hopkins, will be picked from the results of the fall net work and places on the five will be hotly contended for as fresh contestants take high places in each year's assignment of berths on the team.

Miriam Davis has been picked as captain for this coming year and Virginia Blackstone will manage the five. A \$50 increase in the budget will bring the total to \$150, so it is expected that several more intercollegiate matches may be played than have formerly been given place.

FOURTH ROLL CALL PLANS BEING MADE

To Be Held on the Back Campus October 10; Snake Dance Down Avenue to Follow

Plans are being made for the fourth annual Roll Call of the University to be held on the back campus of the Arts and Sciences Department at 5 o'clock the evening of October 11. The committee in charge of the arrangements is working out the details of the program for the affair.

Speakers of national reputation, music, the appearance of George and Martha Washington to welcome the men and women of the University and many other events generally mark the evening. After the campus exercises the annual snake dance is held, starting from the University and extending down Pennsylvania Avenue, down F Street, through places of prominence.

In case of rain the Roll Call will be held in the gymnasium. Classes are generally dismissed the evening selected for the exercises and this will probably be done this year.

Alumni Sent Tickets To Athletic Contests

A Good Number Respond to Coach Crum: Letters of Praise Are Received

Season tickets for football and basketball are being sent to all alumni of the University in a campaign to encourage a more active interest in the sports of the University on the part of its graduates. Quite a number of the alumni have responded, and Coach Crum, who is directing the distribution of the tickets, is very well pleased with the results.

A number of letters complimenting Coach Crum on his work as athletic director and particularly as coach of the football team and wishing him continued and increasing success, have been received with the ticket returns. A number of the alumni are commenting favorably on the excellent schedule arranged for the football team this year.

The Pilot's Letter
Forest Park, Ill.
June 16, 1926
The Parker Pen Company,
Gentlemen:
At 4:10 P. M. yesterday I took off in my Yackey plane from Checkerboard field. When I reached an altitude of 3000 feet I leaned over the side and dropped a Parker Duofold Pen. A few minutes later I made a landing near my starting point, and a crowd was examining the same Parker Duofold pen, which had landed on hard ground. To my great surprise, the pen had not been damaged in the slightest by its 3000 foot drop.

Wm. J. Alderson
Signed with the Parker that dropped 3000 feet.

Start School with a Pen that won't break—Dropped 3000 feet!

YES, the Parker Duofold Pen was tossed from an aeroplane at dizzy altitude to test our new Non-Breakable material "Permanite," and landed 3000 feet below—unharmd.

Tests such as this are the best guarantees that a pen will last practically forever.

For a year we kept secret the fact that Parker Duofold Pens and Pencils have barrels of this new lustrous, beautiful, light-weight Permanite until a whole series of heroic demonstrations proved that it does not break.

This black-tipped lacquer-red beauty is not only the smartest, shapeliest pen, but the greatest writing instrument the world has ever seen. Its yielding, super-smooth point is guaranteed 25 years not only for mechanical perfection but for wear.

Choose your point and color at any good pen counter. But look with care for the name "Geo. S. Parker" on the barrel—the mark of highest excellence.

When peg-tops were in flower

PRINCE ALBERT has been the campus favorite since the days of long-haired fullbacks, high button shoes, turtle-neck sweaters, and hand-painted dormitory cushions. This same wonderful tobacco is even more popular in these days of plus-fours.

And no wonder. Throw back the hinged lid of the familiar red tin and release that rare aroma of real tobacco! Tuck a load into your pipe and pull that fragrant P. A. smoke up the stem! That's Prince Albert, Fellows! Nothing like it anywhere.

When problems press and your spirits slip over into the minus column, just get out your jimmy-pipe and load up with this really friendly tobacco. P. A. is so kind to your tongue and throat and general disposition. Buy a tidy red tin today.

PRINCE ALBERT
—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and punch removed by the Prince Albert process.

PAN-HELLENIC RUSHING REGULATIONS ADOPTED

Penalty for Deliberate Violation is Deferred Pledging to April 1, 1927

The local Pan-Hellenic Association adopted at its last meeting of the 1926-26 term the following rules which took effect of September 1, 1926:

1. There shall be a financial limitation of \$265; all donations, including alumnae parties, to be taken from this fund.
2. Bid day to be February 21, 1927. No rushing during the Little Sister Movement and from the end of the Christmas holidays until after mid-year examinations, making the rushing periods from October 15th to January 1, and from February 1 to 18.
3. One luncheon a week may be held in the sorority rooms, the cost of each rusher lunch to be deducted from the "rush fund" of \$265. If more than four rushers are present at one of these

luncheons the total cost must be deducted from the "rush fund."

4. All rushing is to be done in the name of the sorority, and is to be included in the expense limit. Alumnae and patrons shall be included in the restrictions.
5. Final date for each fraternity shall be closed. Selection of date to be in the order of the scholastic rating of each sorority.
6. All first semester rushing except luncheons in the rooms and the formal parties shall be "Dutch Treat." (A formal party is one with more than four freshmen.)
7. Each sorority shall submit a detailed account of rushing expenses to a committee of Pan-Hellenic. This must be handed in 24 hours in advance of the bid list. Each sorority will have a representative on the committee to which this account is sent.
8. Personal parties to be reported. September 1, 1926.
9. These rules will go into effect September 1, 1926.
10. The penalty for deliberate violation of these rules will be deferred pledging to April 1, 1927.

G. W. U. MOURNS LOSS OF DR. H. SCHOENFELD

Resolution Introduced by Dean Wilbur on Behalf of Faculty; Taught Here 32 Years

Dr. Herman Schoenfeld, professor of German in the University for the past 32 years, died at his summer home at Wildwood Crest, N. J. on Sunday, July 4. Dr. Schoenfeld was one of the senior members of the faculty and his loss is mourned by the University.

Dean Wilbur offered a resolution in behalf of the faculty of the Arts and Sciences Department of the University at a meeting of the faculty called together as a tribute of respect to their deceased member. Excerpts from the resolution follow.

"The Faculty of Arts and Sciences of George Washington University is called together as a tribute of respect to the memory of one of its senior members, Dr. Herman Schoenfeld, professor of German in the University for a period of 32 years. On Sunday, the fourth of July, Professor Schoenfeld died at his summer residence at Wildwood, New Jersey. To his colleagues, with whom he was so recently engaged in active teaching in the session just closed, his death comes with overwhelming suddenness, and to all of us it is a deep personal sorrow.

"Professor Schoenfeld came into the Faculty in 1894, when the institution was Columbian University; his name is the third in the seniority list on the Faculty. There are members of the Faculty, some even of professorial rank, who in their undergraduate days studied with Professor Schoenfeld. Of the senior men of the active faculty this is the first break in the circle for many years.

Author of Many Works

"Among his colleagues, and among his students, many thousands, Professor Schoenfeld is loved with a tenderness of affection confirmed by the passing years. He was a profound scholar in the field of Germanics, and a great teacher in the University. He is a living personal influence for sound learning, for good fellowship, and for righteousness.

"He was author of Brant and Erasmus, 1892; Higher Education in Poland, 1896; Erasmus and Rabalais, 1903; History of Teutonic and Slavic Women, 1906; Essays on Universal Peace and German Armaments, 1913; Causes of European Conflagration, 1914-1915. He was Editor of German Historical Prose, 1896; Leopold von Ranke, 1899; Schiller's Maria Stuart, 1899; Wilhelm Tell, 1902; Bismark's Letters and Orations, 1905.

"These extensive and scholarly activities made him widely known, and in association with his professorship at the University, distinguished him as one of the most eminent professors of Germanics in America.

"In this bereavement our thoughts and our profound sympathy go out to the members of his family. To Mrs. Schoenfeld we would express our love for Dr. Schoenfeld. To his sons and daughters, all graduates of the University of which their father was a very important part, we express our love and our sorrow for him. The years have left us something; fellowship is not desolate. We have some vision—

"Thither our path lies; wind we up the heights;
Wait ye the warning?
Our low life was the levels and the nights;
He's for the morning."

WOMEN'S SPORT PLANS OUTLINED

(Continued from page 1.)

Mary College is on a tentative schedule. Practices will be held on Tuesdays, Wednesdays, Thursdays, and Fridays, and all candidates are requested to report to the gym for registration.

Tennis will open its season on October 3, when all applicants are to sign up with Miss Hopkins. The fall singles tournament starts at an early date and the winners will be those who will represent G. W. in its inter-collegiate matches next spring—all of which has been made possible by a budget voted by the Council.

Basketball Starts November 1

Basketball, the major girls sport of the winter, starts its schedule on November 1, when afternoon practices for inter-class games will begin. Varsity basketball which is looking forward to an all-collegiate schedule of the highest type, expects to get under way soon after the Christmas holidays. No definite schedule has as yet been arranged by Louise Omwake, manager, but all expectations point to an interesting program with leading colleges of the East.

Rifle, one of the University's most successful sports, will begin early in November with matches scheduled for January, February, and March, according to Ermytrude Valden, manager. Much is promised this year with so much excellent material from which to choose.

A new interest has been stirred up in the fencing team this year, as it is hoped to have several contests with outside schools that use the Italian method.

For swimming, a field of activity that is gaining steadily among the fair sex, a definite program has already been arranged and will be started on March 1. At that time there will be instructions for beginners, intermediates, and advanced swimmers, including a special class for American Red Cross Life Saving work.

FRESHMEN TO BE GIVEN INTELLIGENCE TESTS

The incoming freshman class will be given Dr. Fred A. Moss' combined mental alertness and social intelligence test October 6 and 7. The full time students will meet at 10.05 on the former date, while the part time students will be tested at 5.10 on October 7. The tests will be held in Corcoran Hall and in the gymnasium, and all freshmen are required to take them. From twelve to fifteen hundred freshmen have been prepared for by the psychology department.

"LITTLE SISTER" PLAN WILL BE USED AGAIN

This Movement Inaugurated Last Season, Sponsored by Girls of Upper Classes

The "Little Sister Movement," a plan carried out by many of the leading colleges and universities today and last year inaugurated in George Washington University through the Dean of Women, has again been adopted as one of the first major activities of the Fall Term. Last year's tremendous success has started the affair this year with even greater impetus than was shown in the previous school year.

This plan, sponsored by the upper-class girls, is organized in an effort to aid all incoming girls in the University to get acquainted with their new surroundings and to fall in line with the customs, ideas and traditions held by the college. As arranged by Elsie Talbert, chairman, the affair in reality started on Freshman Day, when all the "Big Sisters" lent helping hands to the new girls and showed them the way of the first day's program.

During this movement the first few weeks of the school term the sorority girls have agreed not to wear any insignia or pins identifying them with their Greek groups. With the coming of the night of Roll Call on October 11, the "Little Sister Movement" will come to a glorious ending with a Gym party and supper for both "Big" and "Little" sisters given by the local chapter of the Y. W. C. A.

NEWMAN CLUB TO MEET

The Newman Club will hold its first meeting Tuesday, October 5, at 8.15 in Corcoran Hall, Room 22. Dr. Cartwright will give a short description of the aims and past works of the club. Plans for the coming year will also be discussed. All Catholic students of the University are invited.

GLEE CLUB WILL HOLD TRYOUTS NEXT WEEK

Elect Officers For the Coming Year at Meeting Held in June; Gave 15 Concerts

Officers for the coming year were elected by the George Washington University Glee Club at the close of their year last June. They are Jack Poole, President; Henry J. Klinge, Manager; James Fleck, Assistant Manager; and J. T. White, Secretary.

After having completed the most favorable year of its existence, the club is being completely reorganized with the idea of surpassing all previous efforts, if possible. Bob Harmon, popular director of last year, will again direct the organization. He will be again assisted by his wife, Mrs. Grace R. Harmon, as accompanist.

The first tryout for the Glee Club will be held in Corcoran Hall, Room 1, Thursday, October 7, at 7.30 p. m. All men interested in trying out for the club are asked to report at this time.

Last year the club made over 21 public appearances, 15 of which were full concerts. The final appearance of the club was at Keith's Theater during the week of June 6. Sensational success marked this appearance of the organization.

Columbian Women Give Building Fund

Hope to Start Third Unit This Year; Will Contain Rooms For Arts And Sciences

The Columbian Women succeeded in raising one thousand dollars on their ten thousand dollar pledge during the past summer, according to Mrs. Henry Grattan Doyle, president of the organization. The ten thousand dollars was promised last spring, following an appeal from President William Mather Lewis for aid in erecting the third unit in the building project.

The fund will be used for the establishment of a woman's club room in the new building. It is believed that work will be started some time this year. The new building will occupy the corner of Twenty-first and H Streets, adjoining Corcoran Hall, and will contain classrooms, laboratories, and a library for the Department of Arts and Sciences.
